

TABLE 4. CANADA, PRODUCTION (1) AND USE (2) OF COAL COMBUSTION PRODUCTS (CCPs), 2003

	Fly Ash	Bottom Ash	FGD Gypsum	Other (3)	Total CCPs
(000 tonnes)					
PRODUCTION					
Produced	4,685	1,980	x	x	7,239
Disposed/stored	3,696	x	–	x	5,679
Removed from disposal	x	–	–	–	x
USE (DOMESTIC)					
Cement	403	x	x	–	523
Concrete/grout	531	–	–	–	531
Mining applications	x	x	–	–	96
Roadbase/subbase	x	x	–	–	42
Wallboard	–	–	x	–	x
Other (4)	x	x	–	–	112
Total use	1,149	x	x	–	1,673
Individual use percentage	25	8	100	–	23

– Nil; x Confidential.

(1) Reported production of coal combustion products (CCPs) may include both dry and ponded categories. (2) Use (domestic), as reported, includes amounts imported (assumed HS codes 2621.00 relating to fly ash and HS 2520.10 relating to gypsum). (3) Cfb (circulating fluidized bed) fly ash and bottom ash. (4) Includes waste stabilization and specialty uses such as mineral filler and flowable fill.
