

CANADA: TOTAL COAL COMBUSTION PRODUCTS (CCPs) - PRODUCTION AND USE - 1999 1/ 2/
(thousand tonnes)

	Fly Ash	Bottom Ash	FGD Gypsum	Other	Total CCPs
Production:					
Produced	5100	1845	357	129	7431
Removed from disposal	1	26			27
Stored on site	4245	1537	22	129	5934
Use (domestic):					
Agriculture					
Blasting grit/roofing granules					
Cement	334	135			469
Concrete/grout	350				350
Wallboard			335		335
Mining applications	126				126
Roadbase/subbase	11	107			118
Other	29				29
Flowable fill	see 4/				
Mineral filler					
Snow and ice control					
Structural fills					
Total use	850	242	335		1427
Individual use percentage	17	13	94		

Notes:

1/ Production of CCPs includes both dry and ponded categories.

2/ Use (domestic) includes reported quantities imported (assumed HS code 2821.00) - does not apply to amounts exported.

3/ Cfb (circulating fluidized bed) fly ash and bottom ash.

4/ Relates to uses such as waste stabilization, oil well reclamation/cementing agent, microspheres, roofing tiles.

Total combined trade (exports and imports) of fly ash as reported amounts to about 360 000 tonnes.

7/31/2000 - (a revision of compilation dated 16-Jun-00)

NOTE - Additional data allowed a revision of the amounts of FA amd BA stored on site.
